

THE NEW ITP TERRA CLAW[®]

New ITP Terra Claw[®] all-terrain tire

NOW E-MARKED

ITP announces the release of the new ITP branded Terra Claw high performance, 8 ply radial all-terrain tire. Proudly made in the USA.

The ITP Terra Claw features a unique alternating angled tread pattern to provide ultimate traction in multiple terrains. Additional siping yields increased traction in wet conditions and allows the tread to flex over rocky terrain. Reinforced belts provide increased traction and puncture resistance while the stepped tread blocks give additional biting edges to aid traction in rutted conditions.

PERFORMANCE

- Round shoulder design provides excellent steering response and lateral stability
- V shape lug design provides increased traction and self-cleaning

TREAD DESIGN

- Unique alternating angled tread pattern provides enhanced traction in all terrains from hard pack, rocks, slick surfaces and soft terrain
- Center lug design provides both traction and a comfortable ride

TERRAIN

- Additional siping added for wet traction and flex over rocky terrain
- Stepped tread blocks provide more biting edges in rutted conditions

CONSTRUCTION

- 8 ply radial construction
- Reinforced belts provide increased traction and puncture resistance
