INNOVATION TRACTION PERFORMANCE

ITP tires and wheels meet the demands of today's off-road enthusiasts by delivering unequalled traction, precise handling and exceptional durability to overcome the world's most challenging terrain.

CONQUERING THE WORLD'S MOST CHALLENGING TERRAIN

INDUSTRY-LEADING PERFORMANCE

In the lab and on the test field, the ITP team works hands-on to ensure that each tire made outperforms the competition.

BUILT FOR THE WORLD – MADE IN THE U.S.A.

ITP tires are made in America -- individually hand-crafted in Clinton, Tennessee. As supporters of American ingenuity and product quality, the ITP team is proud to be a part of locally built tires for worldwide customers.

NEVER STOP PUSHING

The imaginative engineering team at ITP continually pushes the envelope with tire-and-wheel innovations that answer demands for new vehicle introductions, durability requirements and fitment upgrades. ITP: The World's #1 ATV/UTV Aftermarket Tire & Wheel Source. Everything you need to conquer the world's most challenging terrain.

SAVAGE XT

The ITP Savage XT tire is a first-rate all-terrain tire engineered to handle the demands of larger and more powerful UTVs on the market. Designed with an aggressive tread to navigate a wide variety of terrains, the Savage XT provides reliable grip and superior performance in all off-road conditions, offering confidence in any adventure. With both RG2 (soft) and innovative super sticky Hyper-Adhesive Rubber Compounds available, combined with rugged construction, the Savage XT delivers unparalleled performance and is ready for any adventure you embark on.

PERFORMANCE

- Engineered to support the heavier demands of today's larger, more powerful UTVs.
- Provides reliable grip and superior performance in all off-road conditions, offering confidence in any adventure.

TREAD DESIGN

- Available in two compounds – RG2 (soft) and all new super sticky Hyper-Adhesive Rubber Compound
- Reinforced sidewall and aggressive shoulder design with advanced treatments to guard against cuts, impacts, and punctures.

CONSTRUCTION

- Durable 8PR radial construction delivers a smooth, comfortable ride while offering exceptional puncture resistance, even in harsh environments.
- Protective rim guard shields wheels from debris and potential damage, preserving their appearance and integrity.

INTERSECT®

With its foundation in ITP's ground-breaking RG2 soft compound, the Intersect® tire ensures enhanced performance and unbeatable grip on a variety of terrains, instilling confidence in off-road adventurers. Intersect® tire guarantees a smooth and predictable steering response, while its robust 8-ply rated radial construction promises durability that can withstand the most demanding conditions.

PERFORMANCE

- Unbeatable grip on a variety of terrains
- All new RG2 soft compound for enhanced grip
- Smooth and predictable steering response
- Robust construction for durability

TREAD DESIGN

- 19 mm lug depth with center lug channels
- Shoulder lugs enhanced with contour changes and channel cuts; promotes ease of steering on low profile sizes and increases traction in slick and rutted conditions
- Additional channel cuts in tread face lugs increase biting edges; improves traction on slick rock and in wet, muddy conditions

CONSTRUCTION

- 8 ply rated radial construction
- Reinforced belts provide increased traction and unequalled puncture resistance
- Increased sidewall strength offers superior stability and puncture protection
- Made in the USA

MT911[®]

The MT911 tire offers a square shoulder tread design, belted bias construction, and 8 ply rating to increase tread stiffness to provide better handling and excellent steering response.

PERFORMANCE

- Unmatched traction and side bite
- Staggered width shoulder lugs
- Optimal footprint for even pressure distribution

TREAD DESIGN

- 38.1 mm lugs provide exceptional traction in mud
- Center flex zone cleans out mud rapidly to ensure navigation through the muddiest trail sections
- Aggressive shoulder lugs to help propel your ride through rutted and rocky mud terrain
- Tough Tread rubber compound resists abrasions, chips, and cuts
- Multi-angled lugs provide extra biting edges and a comfortable ride

CONSTRUCTION

- 8-ply rated construction
- Reinforced belts provide increased traction and unequalled puncture resistance
- Increased sidewall strength offers superior stability and puncture protection
- Made in the USA

TERRA HOOK®

The ITP Terra Hook tire is a high performance all-terrain tire that offers eleven sizes to fit a wide range of vehicles.

Designed with multi-angled channeled lugs, the Terra Hook's unique non-directional tread design delivers traction and performance over roots, rocks and other trail conditions.

PERFORMANCE

- Balanced tread-to-void ratio ensures a smooth ride on harder surfaces
- Alternating shoulder elements assist grip from any angle of approach or direction and enhance forward or reverse motion in rutted conditions

TREAD DESIGN

- Unique tread blocks with alternating pitches provide true multi-surface, multi-condition traction
- 19 mm lug depth for maximum handling and control

CONSTRUCTION

- 8 ply radial construction
- Reinforced belts improve straight line traction and enhanced puncture resistance
- Made in the USA

TENACITY® XNR

Premier high-performance tire with radial construction. These non-directional tires have been designed for desert, gravel, rock, and sandy terrain.

PERFORMANCE

- Premier high performance tire design
- OE on the Can Am Maverick R

TREAD DESIGN

- Carcass built with advanced nylon body plies and CCB (continuous cap belt)
- Chain type-pattern improves traction in loose conditions

CONSTRUCTION

- 8 to 10 ply rated radial construction
- Advanced tread compound for extended wear
- Reinforced belts provide increased traction and puncture resistance

COYOTE®

Specifically designed for high horsepower UTV and SxS vehicles, the 8 ply rated Coyote tire is a radial performance tire and proudly made in the USA.

PERFORMANCE

- Unmatched traction and side bite
- Predictable lateral stability
- Surgical steering response
- Specifically designed for higher horsepower vehicles
- Dominates rough, hard-pack, gravel and sandy terrain
- Staggered width shoulder lugs
- Optimal footprint for even pressure distribution

TREAD DESIGN

- Ample void and multiple biting edges on the tread blocks offer excellent traction in a variety environments
- 19 mm lug depth for maximum handling, braking and traction control
- Center lug channels improve traction by allowing the tread to flex and wrap around rocks and other objects when riding on rough trails

CONSTRUCTION

- 8-ply rated radial construction
- Reinforced belts provide increased traction and unequalled puncture resistance
- Increased sidewall strength offers superior stability and puncture protection
- Made in the USA

VERSA CROSS® V3

Extreme Performance for Hard Pack to Intermediate Terrains.
 With its enhanced tread pattern and 8 ply rated radial construction, Versa Cross V3 is designed for today's high performance UTV and SxS vehicles.

PERFORMANCE

- Super-deep rim guard designed to protect the rim lip on styled aftermarket wheels
- "Tough Tread" rubber compound protects against cuts, chips and tread wear

TREAD DESIGN

- 19 mm lug depth with center lug channels
- Shoulder lugs enhanced with contour changes and channel cuts; promotes ease of steering on low profile sizes and increases traction in slick and rutted conditions
- Additional channel cuts in tread face lugs increase biting edges; improves traction on slick rock and in wet, muddy conditions

CONSTRUCTION

- 8 ply rated radial construction
- Reinforced belts provide increased traction and unequalled puncture resistance
- Increased sidewall strength offers superior stability and puncture protection

CRYPTID®

PERFORMANCE

- The paddle-like shoulder configuration provides maximum side bite for climbing in and out of the mud without compromising ride comfort on trails and hard pack
- Grooved center lugs to channel away mud and debris and a super durable rubber compound to protect against abrasions, chips, and cuts

TREAD DESIGN

- Proven "chevron" style tread pattern, designed to deliver unparalleled forward traction
- Lug Height is graduated, starting at 38.1 mm at center growing to 50.8 mm at the shoulder

SAND STAR®

PERFORMANCE

- The fronts, stamped with the ITP logo use a “dual rib” center design for remarkable steering control

TREAD DESIGN

- Eight, 30 mm paddles and eight “mini-scoops” provide many biting edges for huge traction and acceleration when pushed

CONSTRUCTION

- 2-ply rated construction
